

## Chapter 4

### Destiny Number or Life Number

The Destiny number is that number which decides your friends cycle and the important years of your life. Hence it is also known as Life Number. It can be obtained by adding all the numbers in the date of birth and converting it to the basic number. The important years of the person are the age and years which when added gives the destiny number.

**Note :**

While calculating the destiny number, the year of birth is to be taken as 19XX (like 1985, etc.).

**Example 1:**

If a person is born on the 25<sup>th</sup> of September 1978 i.e. 25-09-1978 , then the destiny number of this person is  $(2+5) + (0+9) + (1+9+7+8) = 7 + 9 + 7 = 23 = 2+3 = 5$ .

Since the destiny number of this person is 5, the important years of this person are 1985, 1994, 2003 etc.

**Example 2:**

If a person is born on the 3<sup>rd</sup> of July 1984 i.e. 03-07-1984 , then the destiny number of this person is  $(0+3) + (0+7) + (1+9+8+4) = 3 + 7 + 4 = 14 = 1+4 = 5$ .

Since the destiny number of this person is 5, the important years of this person are 1985, 1994, 2003 etc.

**Example 3:**

If a person is born on the 13th of May 1980 i.e. 13-05-1980 , then the destiny number of this person is  $(1+3) + (0+5) + (1+9+8+0) = 4 + 5 + 9 = 18 = 1+8 = 9$ .

Since the destiny number of this person is 9, the important years of this person are 1980, 1998, 2007 etc.
